

The aim of Fluxus Courtyard is for the community to implement ideas in collaboration with an artist, making decisions through the CO-CREATION process.

FLUXUS courtyard No. 4: Baltų pr. 147, Šilainiai, Kaunas

What kind of courtyard is it?

It is a multiresidential building courtyard with some spaces that are privately owned and fenced. In the courtyard, we miss a recreational space and we are like the cosmos of Šilainiai with very peculiar residents living in it.

Who are the residents of the courtyard?

Around 150 residents, most of them are families. Active members of the community: 15 people.

What is expected from the artist?

What we miss the most is the recreational area, and when the neighbours fenced their territories, we became some sort of orphans. So this project is something OUT OF THIS PLANET for us. :) . Maybe it would be possible to turn our courtyard into a SPACE, where children could slide down the Saturn ring, swing on a new moon, where dads could play chess on the Mars, moms drink tea on Venus, grandmas crochet the napkins on Jupiter, grandpas read books on Neptune and we can **all** can take a rest and have some fun in the galaxy of our courtyard.

Maybe the walls of our house could turn into cosmos, so we have a space to continue to fantasise and decorate our courtyard in.
