KAUNAS 2022 LEGACY PLAN
Long term strategy
The Cultural Strategy of Kaunas City envisions Kaunas as a contemporary city, where the richness of art, culture and heritage instils a sense of citizenship in residents, to encourage social responsibility, to develop creativity and ensure quality of life. The Strategy stimulates city to establish itself as a place of inclusive culture, contemporary art and innovative design – and so its return to the cultural map of Europe is ensured by a strong, young, open, and socially responsible cultural and creativity sector that collaborates regionally and internationally.

From the initial stages of the ECoC application, designation and establishment of “Kaunas 2022” organisation, the team's daily work is based on this vision and strategy by seeking to: create conditions that build community and citizenship (programmes MODERNISM FOR THE FUTURE, MEMORY OFFICE, WE THE PEOPLE); ensure the rights of the citizens to culture – to its accessibility and availability; ensure favourable conditions for creative business initiatives and innovation (programme DESIGNING HAPPINESS); create conditions to improve the skills of professionals in the cultural field in order to attract audiences (capacity building programme TEMPO ACADEMY OF CULTURE); encourage inter-institutional and cross-sectoral collaboration, initiatives and partnerships among cultural, educational, social and economic entities; increase the quality and availability of cultural and art services; look for new opportunities and unique vehicles for sharing culture, knowledge and experience in the city and region as well as on national and international levels (CULTURAL PARTNERSHIP PROGRAMME).

In Annex I of The First and Second Monitoring Reports, we showed up the initial activities of “Kaunas 2022” organisation filling in the lines of goals and objectives of The Strategy. When approaching the last phase of the ECoC process, we call it “Explosion” (2021 –2022), the goals and aims of the Cultural Strategy now are converted into detailed actions in “Kaunas 2022” Strategic Action plan, which contains actions of 76 programme partners (please follow updated Annex I). In order to ensure the legacy of the ECoC and therefore implementation of The Kaunas City Cultural Strategy 2017 – 2027, “Kaunas 2022” established and run long-term projects, which are being implemented on local and international partnership-based programming (European Capital of Culture Forum, International Day of Happiness, Fluxus festival, ConTempo festival, CityTelling Festival and Design Event. More about these legacy projects you could find in Annex VIII and in section B. Programme.

MONITORING AND EVALUATION

Collecting data and monitoring the progress of “Kaunas 2022” is an essential part of preparation for the European Capital of Culture 2022. In order to monitor the impact of the European Capital of Culture in Kaunas, several layers of data collection and analysis have been established.

**Internal assessment: monitoring the activity of “Kaunas 2022”**.

The internal assessment serves as an inspection of progress of “Kaunas 2022” programs. It helps to evaluate if the progress of individual projects meets the primary expectations. The indicators to monitor and evaluate the performance of “Kaunas 2022” have been implemented in consultation with monitoring specialists. The involvement of partners in “Kaunas 2022” activities comes with a requirement to keep a transparent record of the indicators that are needed to measure their performance and contribution to the programs of “Kaunas 2022”: number of visitors, participants, events and other activities that are required in a creative process; reach of advertisements and other forms of communication; number of partnerships on a local and international level; and products that are created in the process. The data of indicators is collected and documented internally by specialists that ensure monitoring process.

The automatization of the monitoring system (long-term database run by Kaunas Artist’s House) was launched in 2020. The automat-
Impact assessment: economic, social and cultural.
The outline of the research on the external impact of ECoC has been laid out after a process of preparation that involved series of discussions with researchers from Vilnius University, Vytautas Magnus University and Kaunas University of Technology. After examining research practices of ECoC and other corresponding Lithuanian research that focus on similar objectives and use related databases, number of requirements and indicators for impact assessment were adopted. The research, led by external experts, will consist of assessing economic, social and cultural impact of ECoC.

The researchers are required to adapt mixed methods of quantitative and qualitative analysis. The statistical analysis will be conducted by comparing various indicators of social, economic and cultural processes. Researchers will aim at comparing the performance of Kaunas cultural field before and during the events of ECoC. The analysis of statistical data will be supplemented by data collected from surveys and discussions with focus groups. By adding qualitative methods, “Kaunas 2022” is devoted to get a subjective view on cultural processes in Kaunas, to study the cultural satisfaction of Kaunas residents and guests, and to understand the opinion of people on subjects, such as modernism, heritage, identity, community, etc. By analysing economic, social and cultural impact of ECoC in Kaunas, the study will show how the project contributes to the development of Kaunas city and region.

Employing creative means to assess the impact.
“Emotion Reflector” is an experimental interdisciplinary project dedicated to track and reflect cultural vibrancy in Kaunas city. It is envisioned to create an interactive, inspiring urban intervention at the intersection of art and technology that would translate raw data into artistic language and reflect the satisfaction in culture. The data for “Emotion Reflector” will be collected by digital questionnaires that will also be an integral part of the assessment of cultural impact of ECoC. The project is in development stage.

Final evaluation of “Kaunas 2022”.
In the end of 2023, “Kaunas 2022” will present a study of the final evaluation of ECoC. Supported by data collected in the database, the record of the performance of every programme of “Kaunas 2022” will constitute the first part of the final evaluation. The second part of the study will present the findings of the assessment of external impact of ECoC in Kaunas. It will outline 3 segments of impact – economic, social and cultural – and give a detailed analysis of different indicators that compose them. In this respect, the study of final evaluation of “Kaunas 2022” will conclude the monitoring and analysis of ECoC in Kaunas.

KAUNAS 2022 PROGRAMME CREATES CHANGE

CHANGE THROUGH OPENNESS: from suspicion into trust. From self-deceit into truth. From Sovietism to Europe.

CHANGE THROUGH RESPONSIBILITY: from helpless inhabitant into full right citizen. From “me” into “us”.

CHANGE THROUGH ACTIVISM: from old swamp into young river. From stopover into cosy home.

CHANGE THROUGH OPTIMISM: from boredom into modern forms. From abandonment into creative space.

CHANGE THROUGH DISCUSSION: from idol worship into co-creation. From dull avenue into cosy backyard.

CHANGE THROUGH JOY OF LEARNING: from empty museum into living history. From duty into joy of culture.

CHANGE THROUGH NARRATIVE: from “city against” into “city for”. From “once upon a time” into “ever after”.

CHANGE THROUGH CULTURE.

FROM TEMPORARY TO CONTEMPORARY.

On 22 September 2022, in a media conference co-organised together with Esch-sur-Alzette 2022 and Novi Sad 2022, Kaunas 2022 has publicly announced the official and full programme of Kaunas ECoC to general public, wide national and international media circle, as well as the network of European Capitals of Culture. The Programme Book is available online since then, and will be republished in printed format with some updates for the official opening of Kaunas 2022.

The programme comprises over a 1200 of cultural events, 60 exhibitions, 250 performing art events, of which 50 are premiers, 250 concerts and 40 different genre festivals. Among participants of Kaunas 2022 programme, one can find internationally acclaimed artists, such as William Kentridge, Marina Abramović, Yoko Ono, Robert Wilson, Mirga Gražinytė-Tyla, Oskaras Koršunovas, Edgaras Montvidas, and many others. It’s important to stress that each branch of Kaunas 2022 has its own prominent figures, some of whom are still on their way to international acclaim. Kaunas and Kaunas District, as one big European stage, may become their trampoline.

Since the last monitoring report, Kaunas 2022 has been progressing on developing the projects planned in the programme and with the preparation of each. The structure of the programme remained the same and is divided into thematic platforms of Modernism for the Future, Memory Office, Emerging Kaunas (youth platform), We, the People (community culture platform), Designing Happiness, Mythical Beast of Kaunas, Wake it, Shake it (platform for projects brought into the programme by partners, which are of different types, but in sync with the conceptual values and approach raised by Kaunas 2022).

With every year of preparations and results of all efforts accumulating, the vision of Kaunas 2022 project has proven itself reasonable and well thought through. We believe that the consistency of the project and successfully chosen partners, who all agreed to contribute with the best they can, lead to coherent and lasting results in activating community life, refreshing our collective memory and reconciling with our past, strengthening our emotional bonds with the city and its heritage. After presenting the long-awaited Kaunas 2022 programme to the public, we are looking forward for the title year which should become a summing up of everything we have done to the benefit of Kaunas, the Kaunas district and Europe.
WHAT IS NEW IN KAUNAS 2022
PROGRAMME?

As planned and mentioned in the second monitoring report, over 2020 and 2021, Kaunas 2022 has implemented another set of open calls for partners which brought more significant additions to the programme and some important content.

- A special open call was implemented in order to select a co-producer of the Kaunas 2022 main youth programme event on the first weekend of July 2022. As the Emerging Kaunas programme, this festival was supposed to be developed in a co-creational way, involving as much as possible the young adults and teenagers of Kaunas. After careful selection, Kaunas 2022 had decided to accept the proposal from Freimas – a small independent organization of artists, who will use this opportunity of partnership with Kaunas 2022 to establish a regular international electronic music festival “Audra”. In 2022, the music programme of the festival will be organized alongside activities developed by the youth of Kaunas and comprising public talks, fashion shows, exhibitions, public art installations and more. The mentioned youth representatives are part of the wider Kaunas 2022 family, have previously attended a Kaunas 2022 mentorship programme Kaunas Challenge, and have been developing their initiatives for a significant period.

- The second public open call for partnership projects has been implemented resulting in several dozens of new projects in the Kaunas 2022 programme. This open call, focused particularly on artistic content of high international importance and artistic uniqueness has brought some interesting names and projects into the programme which are hoped to attract interest of an international audience. These new projects include a premier by Robert Wilson at the Kaunas National Drama Theatre, a performance by the Royal Symphonic Orchestra, an exhibition of works by Yoko Ono presented by the Contemporary Arts Centre, a production of Nabucco by Kaunas State Music Theatre at the Kaunas IX Fort, Kaunas 808 Orchestra - a concert of the well-known electronic music compositions performed by the Kaunas Symphonic Orchestra together with local electronic music artists, jazz programme in public spaces Jazz Stops, premier of Requiem by Andrew Lloyd Weber performed by the Kaunas Symphonic Orchestra, and many more projects, events, and festivals.

- Development of the Contemporary Myth of Kaunas Trilogy. Over the years of 2020-2021, Kaunas 2022 has been thoroughly developing the programme of the three grand events of the year 2022:

The Contemporary Myth of Kaunas Trilogy

CONFUSION (the opening) (January 22),
CONFLUENCE (mid-season event) (May 20-22),
and CONTRACT (closing weekend) (November 25-27)
(Idea - Rytis Zemkauskas, head of programme – Ana Kočegarova Maj, director – Chris Baldwin).

We have gathered an in-house events management team with some of the leading technical producers of Lithuania, event managers, as well as the main director of the events. As of today, the team is working on the detailed production of the opening event, including technical planning, public procurements, permission management, crowd management plans, artistic production of costumes, scenography, video projections, communication with partners on the weekend programme.

This trilogy of weekend long events is meant to convey the new narrative of Kaunas which is presented to the public as the story of the Kaunas Beast. We will start by waking the Beast up, encountering Him, and finish by signing a contract with Him for the better future of Kaunas. This year-long story will be full of references to the history and identity of Kaunas and Europe, as well as European values and what it means and takes to be a happy society.

THE CONFUSION

The show is being created by hundreds of performers from Kaunas, Lithuania, and abroad. A synthesis of contemporary music, gigantic video projections, and slam poetry will tell the story of a city as a living, always renewing miracle. The show calls everyone to the city’s creative uprising. Kaunas will invite everyone watching the live broadcast of the opening ceremony throughout the European Union and around the world, to harness culture to create a new, post-pandemic future.

Opening Night will be the main, but not the only event. Introductory events will already begin on 19 January at the edges of the Kaunas District, each evening drawing ever closer to the centre of Kaunas, bringing together local communities, one after another, for the great Opening Night event. On the eve of the show, several of the most important visual arts exhibitions of 2022 will officially open in Kaunas: A solo exhibition by William Kentridge entitled That Which We Do Not remember; International exhibition MoFu 360/365, dedicated to the modernist architecture of Kaunas and Europe, and exhibitions by artists from the two other European Capitals of Culture in 2022: Esch-sur-Alzette and Novi Sad.

In addition, tens of cultural organizations in Kaunas and the Kaunas District are also preparing a special programme for this extraordinary weekend, including concerts, dance performances and productions, tours, and creative workshops.

This entire opening cultural fuss will awaken the Mythical Beast of Kaunas.

And from that moment on, the excitement will begin...
THE CONFLUENCE

The Confluence is the second main event in the Contemporary Myth of Kaunas Trilogy focused on the river topic. The highlight of this weekend is a water show on a scale never before seen in Lithuania, an original production which will tell a story of rivers. The entire weekend will feature shows by acrobats, contemporary circus performers, river excursions, and musical tours to river towns and settlements in Kaunas. If the pandemic permits, we also hope to welcome guests from the other two European Capitals of Culture and also from Alytus, which carries the title of Lithuania’s Capital of Culture in 2022.

For the entire weekend of Closing Ceremonies, various public spaces around Kaunas will be dotted with contemporary light installations brought to Kaunas from sister European cities and other European Capitals of Culture. On Sunday evening, we will bid farewell to our year as Capital of Culture with a magnificent audio-visual show staged at the Raudondvaris Estate, accompanied by an exhibition commemorating the year 2022.

THE CONTRACT

The Confluence weekend of the Contemporary Myth of Kaunas Trilogy will have a major focus on the rivers and riversides of the City and District. Divided from the City, they are absent from our everyday lives, although are the major reason of our cities. The main show will be telling the story of our society through the story of our relation to the rivers, and the rest of the weekend’s programme will offer a great variety of events and workshops located around and focused on rivers.

Wild Bits exhibition in Kaunas. In the spring of 2022, artists from Lithuania and Estonia will meet at the Maajaam artists’ residence in southern Estonia. Surrounded by nature, they’ll explore the impact of technology on how we behave, think, and understand our world. Then, they’ll create works of art that are meant for display in open spaces and that speak about contemporary humanity. The project is being overseen by the renowned Estonian artist Timo Toots.

CULTURAL DIVERSITY IN EUROPE, INTERCULTURAL DIALOGUE AND GREATER MUTUAL UNDERSTANDING

From the beginning of the Kaunas 2022 project, cultural, ethnic and religious diversity has been one of its key topics promoted mainly within the framework of Memory Office platform.

To engage the citizens with diversity of cultures, promote empathy and compassion towards the Other, the Kaunas 2022 team has initiated such projects as Sites of Memory (programme book p. 76), CityTelling Festival (p. 102), Kaunas Kantata (p. 107), Out of Darkness (p. 108), storytelling programme by the citizens of Kaunas Where Can I find You? (p. 120), and many others which are already in progress.

COMMON ASPECTS OF EUROPEAN CULTURES, HERITAGE AND HISTORY

Our common modernism

One of the European narratives continuously promoted worldwide by Kaunas 2022 is that of the Kaunasian modernism. Since 2017, Kaunas has established a link with cities which share modernist heritage such as Lviv, Brno, Kortrijk, Tel-Aviv, and more. These partnerships and the activities that result from them, are aimed at strengthening the recognition of the importance of modernism and its value for the European culture and heritage, and especially in its everyday forms and lesser-known interpretations aside from the prominent and well-known architectural icons.

The peak of these efforts will soon be reached. On January 22, 2022, as an element of its official opening weekend, Kaunas 2022 will present the exhibition Modernism for the Future 360/365 at the former Central Post Office modernist building in Kaunas. The exhibition will encompass artistic works and documentation of projects by various European artists within the framework of the same titled Kaunas 2022 project funded by Creative Europe, in which the artists look for inspiration and contemporary meanings of modernist heritage.

In September 2022, Kaunas will host one of the first visits of UNESCO experts in seeking to obtain the UNESCO World Heritage status for Kaunas modernist architecture. We believe that Kaunas 2022 does an important job of communicating importance of modernism within the local community of heritage home owners, also promotes and encourages good practices of preserving the modernist heritage. Kaunas expects to hear the UNESCO verdict in 2022, although the decision might also take longer.
EUROPEAN IDENTITY AND CHALLENGES

What is Europe? How can one become a European? Is this a cultural concept? Can Europe be conceived of as a project? Who speaks, and has the right to speak, for Europe? These and other questions relevant to the challenges faced by Europe today will be explored by an international symposium co-organised with the Vytautas Magnus University. This two-day event will convene intellectuals, academics, artists, and politicians from around Europe and the world, and will serve as the most important and dedicated platform for discussion on Europe, its future, most relevant current topics and integration, within Kaunas 2022 programme.

EUROPEAN ARTISTS’ PERSPECTIVES ON THE GLOBAL FUTURE

Since 2019, Kaunas 2022 has been cooperating with the Dresden based OSTRALE Biennale. In 2020, OSTRALE presented its edition titled Breatchurn, co-curated by German, Hungarian, Croatian and Lithuanian curators looking at the European and global environmental, social and economic dynamics of the last decade, the imperative of continuous growth and the systems that govern our world. This co-curated project will present diverse and critical perspectives of the European artists on the future of the global society and the prospects of economic and cultural shifts. The exhibition is to be presented at the Kaunas Central Post Office building in October 2022.

EUROPEAN ARTISTS AND COOPERATION WITHIN THE KAUNAS 2022 PROGRAMME

The international aspect and the European dimension have been ranked as a very high priority in the open calls of Kaunas 2022 and upon selection of partners and new projects. Therefore, the absolute majority of Kaunas 2022 projects have at least one international partner, extending the international partners list of the programme to hundreds of organisations and dozens of countries.

From the beginning of the project, Kaunas 2022 has been making efforts to maintain an active connection with other ECoC cities. It is still planned to use these particular partnerships platform on numerous occasions during the Trilogy of our grand events weekends and invite other ECoCs to present themselves with food, neighbourhood, light festivals and on the Kaunas 2022 summer stage with musical performances.

INVOLVEMENT OF LOCAL ARTISTS AND CULTURAL ORGANISATIONS

After summarizing the results of the preparatory years, Kaunas 2022 concludes that the various projects of the programme have brought together over 3000 artists, who were invited to produce new works for the projects of the ECoC in Kaunas. As of today, we can say that the opening night of Kaunas 2022 alone will involve as many as 300 artists from Lithuania and other European/world countries.

We are especially proud that in many new production cases the artists in Kaunas 2022 programme are working inclusively cooperating with local communities. The model has been developed over several years of preparation for Kaunas 2022, and has proved crucial in developing participatory artistic practices in Lithuania, as it was not customary to the local arts scene before.

The international connectivity of Kaunas 2022 with partners in Europe has also created new and additional opportunities for local artists. For example, the Kaunas 2022 involvement with the OSTRALE Biennale has resulted in 11 Lithuanian artists being presented at this exhibition. Also, Lithuanian artists could participate in international exchange with Kortrijk, Brno, Tel Aviv and Liviv within the framework of the Modernism for the Future 360/365 Creative Europe project and produce new works with local artists. A group of artists, including singers, film makers, poets, writers, photographers, sound artists were presented internationally during Kaunas 2022 promotional events in other European cities.

As for the partner organisations of Kaunas 2022, today there are 76 official partners listed in the official Kaunas 2022 programme book along with hundreds of projects coproduced together with them. The list includes every significant culture institution of Kaunas, some of Lithuania, small NGOs, and newly established organisations, made possible with the support of ECoC. They all share the ECoC budget part of approximately 7 million Eur and add around 1.5 million Eur to the programme of Kaunas 2022 using different other resources.
COMBINING LOCAL CULTURAL HERITAGE AND TRADITIONAL ART FORMS WITH NEW, INNOVATIVE AND EXPERIMENTAL CULTURAL EXPRESSIONS

Contemporising Heritage

A big part of the “Kaunas 2022” programme is built on the idea of creative heritage interpretation. This artistic strategy helps us explore the unseen perspectives on the local treasures, forgotten stories, find their links with other European cultures, and inspire interest within the young audience in the local heritage and traditional arts. The artistic heritage projects within the “Kaunas 2022” programme have a goal of creating a link between the historic and contemporary ideas and strengthening the emotional ties of people with local traditions and heritage. Many of such projects revolve around the modernist heritage and were mentioned above. “Kaunas 2022” has been inviting contemporary artists – film makers, designers, musicians – to interpret the ideas and heritage of modernism in their works. On top of that, the “Kaunas 2022” open calls had a special subtopic inviting partners to submit their ideas of contemporary heritage interpretations, such as contemporary dance tours in heritage sites (AURA theatre), site-specific world music festival, artistic visual arts residency programme by Kaunas Photography Gallery and many more.

Moved by Modernism

Modernist heritage is an inspiration for contemporary art. We invite artists to become the interpreters of modernism, and take creative contemporary approach to the modernist heritage and its history. Together with more than 300 local and international partners (private house owners, artists, culture institutions etc.) Modernism for the Future programme has been working with more than 70 artistic residences and events for 2022. The main artistic project - 45 minute film KLOSTĖS (The Folds), involving different age and interest groups (at least 500 people throughout the period): Kaunas video and audio students, volunteers, residents of modernist buildings, creative writing enthusiasts, etc. was launched. Two-month residencies took place in Kaunas in 2020 and 2021 (Irish artists had worked in Kaunas even under Covid restrictions), which included more than 500 local population and about 100 professionals to contribute to its production. The film will be premiered at international festivals early 2022 and presented to European Capital of Culture audiences in the middle of 2022. For more information.

In search of local stories and culture

Similarly, the approach working within the local communities is also based on exploring the local identities and making creative contemporary interpretations. The project “Contemporary Neighbourhoods” is a good illustration of this approach. This project invites all towns and villages in the Kaunas District to apply for a year-long title of a Contemporary Neighbourhood. The selected winning communities receive the mentorship of “Kaunas 2022” curators in the process of discovering their identity, traditions, bringing together the local citizens, and creating site-specific artistic programmes. The process of this project involves a stage of community meetings to explore the local challenges, relevant topics and cultural highlights. Later, the curator suggests a list of artists and creative paths which is discussed with the local communities. After the elaborate research and talk phase, local and international artists are invited to create a unique public art project, involving the local community and its traditions, and presenting the place to a wider audience.

This project has brought not only some memorable artistic results, but also a long-lasting social effect on the sites of the programme and their communities. The artistic outcomes in the “Contemporary Neighbourhoods” include a subjective atlas, photography exhibition, audio walks, two specially produced live performances, based on local stories and involvement of local community and artistic collectives, documentary, sculptures, public installations, and more... They have shown in a new light the local creatives, like polyphonic singing collectives, choirs, musicians, collectors and never seen treasures owned by them. These projects brought to life abandoned spaces, turned the public’s attention to forgotten towns, their stories and heritage.

Prepared for the future

Although the title year is yet to come, the participants of the Kaunas 2022 programme have already started to think about the continuity of their creative activity. Kaunas 2022 team is very happy to report, that new organisations have started to be formed as an outcome of the project and as a way of ensuring the longevity of it.

A youth group, who once were the first participants of the Kaunas 2022 mentorship programme Kaunas Challenge, have recently started an organisation with the same name. Since 2021, they will take over the management of the mentorship programme for youth of Kaunas, as well as organize other cultural activities. More about Kaunas Challenge: https://kaunas2022.eu/en/kaunas-challenge/

Kaunas 2022 team members behind the We, the People – community culture programme, have recently established another NGO named Community Laboratories. As soon as Kaunas 2022 project ends, they plan to continue offering mentorship for community projects, help in developing community culture activities in Kaunas City and Kaunas District, organize competitions for community initiatives, and share the experience with other cities in Lithuania and Europe.

NGO Modernism for the Future, titled after one of the pillar platforms of Kaunas 2022, has also been established by the initiators of the programme in order to continue related activities in the future. Aside from these few initiatives, Kaunas 2022 has ignited other new associations, NGOs, informal communities and initiatives, promising and motivated. Kaunas 2022 team hopes these organisers and creative leaders will be the key to a successful long-term result of the project, ensuring the vision of the project continues to live in the activities of multiple culture organisations.

All programmes presented in Programme Bidbook in 2017 are well developed and ready for full implementation in 2022. Programme book is available in printed version and online.

For main highlights of the programme please follow Annex II.
Capacity to deliver
The ECoC continues having broad and strong political support and a sustainable commitment from the local, regional and national authorities.

The “Kaunas ECoC” programme continues to have broad support of local and national authorities. The “Kaunas 2022” team cooperates closely with local governments in Kaunas and Kaunas District as well as the Ministry of Culture and has regular meetings with mayors and deputy mayors of Kaunas and Kaunas District during which key points and challenges of the build-up process are addressed. Representatives of all above-mentioned stakeholders are present at The Board which meets 2-3 times per year to consult and monitor the process of ECoC 2022.

In 2019, Kaunas City Municipality has established The Workgroup members of which represent all related departments of the municipality – Cultural Division, Culture Heritage Division, City Management Division, Legal and Consulting Division, and members of the City Council, Vice Mayors, Administrative Director and Vice Directors. The group has become a regularly working team for urgent decisions and practicalities.

In late 2019, “Kaunas 2022” organisation prepared a detailed action plan for 2020-2022 (regularly updated) which contains all parts of the programme, including projects of 76 partners. The strategic action plan is confirmed at The Board level and by General Meeting of Stakeholders. The budget needed for implementation is confirmed by Kaunas City Council, Kaunas District Council and State Government. In 2021 all three main stakeholders took an action and readapted budget plan according to Kaunas 2022 needs, transferring 720 000 EUR into 2021 year from 2022 budget.

Kaunas 2022 budget is stable and provided to implementing institution following planned schedules.

STATUS OF INFRASTRUCTURAL DEVELOPMENT

Most of the projects related to infrastructural development that were listed in the Kaunas bid book are meeting their planned schedules or are slightly late but scheduled to be finished on time and before 2022. The progress of main infrastructure projects is described in a table provided in Annex III.

Since we are putting the programme of 2022 in place, we know that a lot of the programmed events will take place in unusual venues such as modern architecture buildings (public and private), post-industrial venues, public spaces of the city and district. All programme partners are responsible and capable to implement their programmes either in their own facilities (theatres, museums, galleries, university halls) or in the above-mentioned public and private spaces, the owners of which are being contacted and invited to participate at the programme. Kaunas City and Kaunas District is capable to implement the “Kaunas 2022” programme within the existing infrastructure and the listed renovations serve more to economic efficiency, aesthetic appearance, and accessibility improvements.

Stage and performing arts programme

Kaunas city has a very comfortable and, in many ways, adaptable Žalgiris Arena (audience capacity up to 20 000), which is internationally recognised for its operational success in sports and culture events. The Arena will be used for several Grand Events in 2022. The stages of Kaunas National Drama Theatre, Vytautas Magnus University and Kaunas Culture House, and Culture Centre Girstutis are capable to host small to medium scale stage events (audience capacity up to 700). The lack of stage art programme of middle-size events (audience from 2000 to 3000) will be solved by the Sports Hall (the first dedicated basketball hall in Europe, built in 1939) - it will be reconstructed and converted into a multifunctional hall for sports, culture, arts, fairs, education, etc. The reconstruction is reaching its finish in 2021. Renovation of Cinema Centre Romuva (with stage extension adaptable to performing arts as well) is about to be finished this year.

Kaunas District is proud to open the Saint John Church in Zapyškis after its reconstruction. It will provide to various cultural events, such as concerts, theatre performances, exhibitions. The surroundings of the church also went through infrastructure improvements in order to have a possibility for outside gatherings and events in the open air and on the riverbank. This venue and the surroundings will play a big role in the program of 2022.

At the same riverbank in Zapyškis a new infrastructural project is planned and now is under development – a cultural ship Nemuno 7. The astonishing conversion of excavator ship into cultural hub and floating garden will invite artists for residencies, visitors for exhibitions, concerts, conferences, celebrations. The inauguration of this amazing and functional landscape design object is planned for 2 May 2022.

As already mentioned above, a big part of the performing arts programme will be implemented in the open air / public spaces, starting with the trio of Grand Events and not excluding the ConTempo – contemporary performing arts festival, established in 2019 in order to become annual international event in Kaunas and Kaunas District, mainly implemented in public spaces, parks and squares, and private courtyards of citizens.
Public art programme

Kaunas City and Kaunas District have a lot of public squares and parks for massive events, stage arts, visual art programme, which are already used for many activities of “Kaunas 2022” and will be used for the main programme in 2022. This applies to the Laisvės Alėja (a broad pedestrian street which connects the new town to the old town), Vienybės and Nepriklausomybės squares, the Santakos park, the Nemunas Island, the Raudondvaris Manor Park, many riverbanks in Kaunas and Kaunas District, etc. These and many other places are ready to be used for public events and contemporary art interventions.

Visual art programme in-house

Even though we had a huge infrastructural challenge due to delayed reconstruction of Žilinskas Art Gallery, we managed to find the venues for our visual art programme entries such as Kaunas Biennial, William Kentridge personal exhibition, Kaunas Photo festival, Marina Abramović personal exhibition and others. The venues include the newly built Basketball House and other currently vacant spaces such as Kaunas Post Office building and few more. The other departments of M.K.Čiurlionis National Art Museum (Kaunas Picture Gallery and Čiurlionis Gallery) will host William Kentridge, Marina Abramovič, and Yoko Ono exhibitions.

Legacy projects (infrastructural)

Kaunas municipality is working on a new post-industrial area (outside city centre) conversion into innovative creative industries lab and area. The project is part of the Horizon 2020 programme under the title “Collaborative Production for the Circular Economy: A Community Approach”. This process will go beyond 2022 and possibly will ensure the legacy of creative initiatives that “Kaunas 2022” is energising among the creative sector during preparation and implementation of the title period.

The Science Island (Science Museum) construction processes are behind the planned schedule but going to be opened late 2022 or in 2023. We do not have necessity to have special programme parts there, but if finished on time it could cover some of the visual art programme needs before the science museum's permanent exposition equipment will be produced and installed. The Concert Hall has no confirmed funding yet and most probably the project will follow the Science Island's construction; it means the implementation will happen far beyond 2022.

Outreach
Since the beginning of the project, participatory aspect was at the core of every Kaunas 2022 programme. To develop a sufficient network of artists, contributors, organisations, interested in participatory culture practices, we had to convince many people and learn a lot (we still are). We launched special faculty within the Tempo Academy of Culture, within which special trainings for culture organisations, as well as creative practitioners were held to convey the modes of work; we were trying to introduce and inspire new community (art) initiatives.

A few years after we can summarise interim results:

More than 3000 events and activities, plus 1316 community events and initiatives took place from 2017 until October 2021, 17 560 participants took active role, 424 221 community members attended, 45 community culture agents joined the extended team after our special course, more than 200 artists were involved in co-creative projects with local communities, 520 professionals were involved in audience development courses, mentorship, and trainings, more than 200 young people trained and empowered to co-create within their age community, more than 700 volunteers of various age are incorporated in events management. Not only community programme We, the People, but each platform of Kaunas 2022 has its own co-creation methodology and communities they operate with.

- Emerging Kaunas platform works with hundreds of teenagers and young adults offering them special training course aimed at developing their personal and team skills and encouraging them to initiate new cultural projects (programme book, p. 156).

- Moreover, Kaunas 2022 has designed and dedicated a special space in the heart of Kaunas Old Town for creative events of the Emerging Kaunas youth group, where many events have already taken place and more are planned in 2022 (programme book, p. 155).

- Within the same platform of Emerging Kaunas, following examples of several other ECoC projects, we have developed offers for our local schools, which we call the European Capital of Culture Classes. Different organisations of Kaunas have suggested ideas for a school class format which introduces different artistic genres to different school age audience (programme book p. 159).

- Modernism for the Future platform works with the inhabitants and owners of the modernist heritage by inviting them to join specially designed restoration workshops, interviewing them to hear interesting stories, involving them in creative processes with contemporary artists.

- Memory Office works with numerous ethnic and religious communities of Kaunas and Kaunas District, as well as the newcomers of Kaunas, making their identity and their most interesting stories and heritage visible to many locals.

- Our volunteering programme puts a special focus on involving senior age citizens in volunteering activities.

We work and continue to offer different trainings every day. In 2021, Kaunas 2022 was offering a special open series of lectures and discussions Creativity and Dialogue: Changes in Communities, on the topic of creative practices for developing communities which proved to be attractive (the recordings can be found here), and had organized the second Community Forum which presented inspiring community initiatives and their leaders.

Over the preparatory years, Kaunas 2022 has become a laboratory for participatory culture practices and knowledge centre for local and European culture activists. This is what we had aimed at from the beginning, realizing that there were not enough examples or creative communities, on which we could build our participatory programme. Today we can enjoy the results of tested and successful projects developed as part of Kaunas 2022, such as:

FLUXUS LABAS – a network of creative laboratories in the micro districts of Kaunas City, which introduce previously non-existent cultural activities and bring together the locals for common artistic activities and results.

CONTEMPORARY NEIGHBOURHOODS – a programme designed for Kaunas District, which aims to highlight the uniqueness of local towns, bring together their communities, and address local challenges through creative activities.

MY COURTYARD – an open call and community initiative-based programme inspiring slight changes in the local neighbourhoods which make the rundown courtyards of apartment buildings cosier.

Other open calls, organized to select and mentor local community initiatives aimed at bringing together locals.
Apart from the above-mentioned efforts, Kaunas 2022 has also been trying to address the accessibility of culture topic, namely raising discussions around audiences with physical disabilities and other groups who suffer exclusion in this regard. Among the measures taken by Kaunas 2022, we can mention:

- Audience development training course as a part of Tempo Academy of Culture. Aside from introduction to the general concept of audience development, this course has a special focus on the topic of accessibility. It introduces the challenges to participate in culture experienced by diverse groups of society, as well as ways to improve the accessibility of cultural services.

- Kaunas 2022 in collaboration with design agency "Critical", has produced an online culture accessibility guide "Kaunas for all". This is the first publication of its kind dedicated to cultural organizations, objects managers, and event organizers to make cultural objects and events more accessible for all social groups, especially those with special needs. The guidebook can be found here.

- The Kaunas 2022 open calls had a priority for projects improving the accessibility of culture for all. As a result of the open call and the above-mentioned accessibility promotion methods, several culture institutions have become study cases and test grounds for improving the accessibility. For example, the Historical Presidential Palace (history museum) is preparing a new exposition specially for the ECoC year, which will have special layers designed for visually impaired visitors and visitors with hearing disability; the Kaunas Chamber Theatre has been introducing the earlier mentioned signage system in their premises, as well as developing content adapted for special audience groups, including small children.

Kaunas 2022 has developed a partnership with Kaunas Deaf Youth Organization and has appointed Paulius Jurjonas, the head of this organization as one of the ambassadors of Kaunas 2022. This partnership results in adaptation of Kaunas 2022 events and content for people with hearing disability. For example, as part of Kaunas 2022 official opening programme, this organization is producing a theatre performance which will be shown during the opening weekend and tells a story of girl with hearing disability. Moreover, the main opening show will include sign language which will be included as an artistic element of the script.
**“Kaunas 2022” organisation.** No changes of the governance, management and administrative structures happened in the “Kaunas 2022” organisation from its establishment.

The public, non-profit “Kaunas 2022” Institution was established immediately after securing the ECoC title, on 6 April 2017 by the Kaunas City Municipality, the Kaunas District Municipality, and the independent culture association Kultūros tempo akademija (Tempo Academy of Culture), which united the core bidding team for the Kaunas European Capital of Culture programme.

The governance system explained in detail in the First and second Monitoring Reports stays the same. The “Kaunas 2022” organisational structure is graphically explained in the table provided in Annex IV.

**“KAUNAS 2022” TEAM AND STAFFING PLAN.**

The “Kaunas 2022” operational team consists of 3 departments: Administration, Creative Programme, and Communication and Marketing, led by heads of departments who report to the Head of the Organisation.

As of 30 September 2021, the Institution has 71 employees, led by art historian and critic Virginija Vitkienė, PhD. The Institution succeeded in preserving the entire “Kaunas 2022” bidding team which was a crucial advantage in transition to the ECoC delivery phase and now serves as guaranteed continuity of the programme vision and established partnerships. The team is currently bigger than was anticipated in the bidding phase and will grow over 80 full-time employees in 2022, but much smaller number of individual service providers will be onboard than expected five years ago.

**The Creative Programme department,** led by Ana Kočegarova-Maj, has 13 programme curators and 23 coordinators who are responsible for the implementation of 8 Kaunas ECoC programmes, international relations, grand events, Kaunas District programme. One extra curator is dedicated to technical side of public events, and he will have a team of 6 technical coordinators until end of this year. The curators form the Programming team meeting weekly to monitor the progress of the programme and ensure cross-platform cooperation. Ana Kočegarova-Maj delegated her previous responsibilities on international projects to curator of international relations and the last year was focused on programming of the Contemporary Myth of Kaunas Trilogy - grand events of 2022. Rytis Zemkauskas, being a writer and an author of the concept of new myth of Kaunas, has a role in our team as a guardian of narrative and script writer of the Contemporary Myth of Kaunas Trilogy. He is working on preparation of scripts and messages which would unite hundreds of events into a story-telling experience for Kaunians and guests of the title year programme. A strong curatorial team composed of Viltė Migonytė Petriulienė, Daiva Citvarienė, Donata Jutkienė, Rytis Zemkauskas, Greta Klimavičiūtė-Minkštaitienė, Aurelija Prašmuntaitė, Gediminas Banaitis, Lukas Alysia, Aistis Lansbergas, Dovilė Butnoraitė in close collaboration with designated coordinators (1–4 at each platform) lead platforms and programmes of “Kaunas 2022” and work daily on capacity building, research, planning, organising, and implementing programme parts. They also facilitate discussions, hold meetings, and visit regularly partner institutions to develop the programme together.

**The Creative programme team** has a full independence for artistic content within the financial framework confirmed annually by the financial stakeholders and following aims and goals expressed in the Strategic Action Plan confirmed by The Board of organisation. Inside the organisation the curators confirm the contents of the main events and activities with the Head of Programme and Director of the organisation. The Creative Programme team, which is composed of 40 people now, will grow up to 50 later this year, employing additionally technical coordinators and exhibition coordinators (a big scale exhibition in non-museum space will be opened in January). The graphical plan of the structure of Artistic Programme Department is provided in Annex V.

**The Marketing and Communication department** covers the above-mentioned tasks of organisation, which includes private sponsorships among its responsibilities. 15 employees are implementing the strategy of international and local communication of the goals and achievements of the project, as well as taking care of the integration of private sponsorship providers into the programme of cultural events. The department is fully skilled and has designated persons in both areas – marketing and communication. It also has 2 designers employed and is working with a lot of external service providers in order to ensure accessibility to information, openness to participation and visibility of the results of the programme. During the 2019, the strategic plan for local and international communication of the title year programme was prepared and the team is ready to follow the calendars. Growth to 16 employees is envisioned for 2022.
The Administration team has 18 employees: head of administration Živilė Stankevičienė, finance manager with two assistants, public procurement team with lead person and 4 specialists, 2 monitoring specialists, 3 administrators, personnel specialist, an assistant manager, and a logistics manager. Aside from ensuring successful delivery of the programme, the department also communicates to the financing institutions, preparing monthly, quarterly, and other financial and activity reports and plans. The administration team members have high competences from previous work experience in advanced business and/or public sector. Growth to 20 employees in the Administration department is envisioned for the period of 2022.

Administrative challenges

In the first monitoring report we expressed our concern regarding the legal rules for financing the “Kaunas 2022” organisation through re-application system every year. It caused until now extremely late (end of March) transfer of money to the institution’s accounts. With the help of Kaunas City Municipality, which also distributes State Government fund, in 2020 we applied for the 3-year period which had to ensure the smoother finance flow in the beginning of 2021 and 2022. But it was not a case in the beginning of 2021. Finances reached Kaunas 2022 account late March 2021.

Kaunas 2022 re-finances partner institutions (76 in total) those taking a big administrative load on its shoulders. We must lead and administratively control partners financing them in quarters (it means – regular checks of achievements and progresses they have done before money transfers, loads of planning and reporting papers, protocols) and many more functions like those of public fund administration. We expect much bigger support from Municipality side, as well as extra human resources to manage such a huge partnership process.

A public funding is secured at this stage. The only short-term cuts from both municipalities were made during 2020 and were related to Covid pandemic crises. State policy in pandemic situation is keen to support culture even more than in economically stable times. In 2021 all three stakeholders agreed to transfer 720000 EUR from 2022 to the last quarter of 2021, because we asked for this reallocation, when facing need of pre-payments for Opening event which planned for 19-23 January 2022.

Private sponsorship goal for 2 m euros is reached if we count contributions of media partners. But in parallel we are working to ensure financial support for at least 1 m euros in upcoming two years.

We have already secured 908 078,73 EU from various EU funds. Adding the expected EU-Japan Fest co-financing to Asian representation and our partners applying to various EU funds for special co-productions for 2022, we will reach planned amount of 2 million. We strategized our operational budget so that all main programme parts are secured by guaranteed funding and are not dependant on non-guaranteed parts. The extended explanatory text on European partnerships and funding can be find here.

Please follow the table of the European Funding results in Annex VII.

**MARKETING AND COMMUNICATION**

The Marketing and Communication department covers marketing and communication tasks as well as fundraising needs of organisation. 15 employees are implementing the strategy of international and local communication and marketing of goals and achievements of the project, as well as taking care of the integration of private sponsorship providers into the programme of cultural events. Head of department Mindaugas Reinikis has come from business background with more than 20 years of experience in managerial positions. The department is fully skilled and has designated persons in both areas – marketing and communication. It has two in-house designers, creative director, and is working with a lot of external service providers to ensure accessibility to information, openness to participation and visibility of the results of the programme. During the 2020, the team was following the strategic plan for local and international communication of the title year programme. Bid for international communications agency is ongoing, it will be used for strengthening both subdivisions – marketing and communication - by extra skills and contacts needed for media campaigns of the title year.

“Kaunas 2022” has developed its Communication & Marketing Strategy that supports “Kaunas 2022” program in achieving its goals during the 2018–2023 period. It involves 4 stages:

- **Ignition 2017-2018**
- **Agitation 2019-2020**
- **Explosion 2021-2022** (current stage)
- **Legacy 2023**

The main idea of our communication activities is to promote the shift of Kaunas from temporary to contemporary capital. Two targets – local and international – are at the core of the communicative messages:

1. for local citizens – we want to ensure that the city fully recovers its sense of belonging to Europe, takes everyone on board and everyone’s effort is needed. So, the internal message remains: FROM TEMPORARY TO CONTEMPORARY.

2. for Europeans – Kaunas revitalizes European mythology, offers a unique transformative personal journey, serves as a case study of cultural approaches and European values. So, the message is: Co-Create, Co-Celebrate. Kaunas is becoming the biggest European stage.

Our communication campaign consists of four main elements:

- communication of image (branding);
- communication of programmes and events.
- international communication.
- communication of Kaunas Mythical Beast.
COMMUNICATION OF KAUNAS MYTHICAL BEAST

Communication of Kaunas Mythical Beast is one of the most powerful tools at the disposal of the team. The book “Tales of the Beast of Kaunas” is published in Lithuanian and English. The Hebrew, Russian, German, Ukrainian translations of selected parts of the book are already done and will be published as separate books. Several more languages translations are on the way. The book presents “Kaunas 2022” program and values in a form of tales. It introduces the whole new concept of Kaunas – attractive, mysterious, rich in vertical context, it suggests ways of dealing with complicated history and present. The whole new world is created on a basis of existing stories and legends, and ideas. “Tales of the Beast of Kaunas” is basically “Kaunas explained” to itself and to the outer world.

The whole new set of characters is introduced with the help of the book and the Princess with her “army” has already participated in Rijeka carnival in a form of a costume show produced by one of Kaunas District communities. Lithuanian national radio broadcast made sound recorded tales for children. Also these tales and their audio records are used for various events, excursions and other activities dedicated to Kaunas Beast.

Simultaneously the website is relaunched and serves as additional tool for workshops, gathering information, archived stories, stories contributed by community members as was initially planned, promotion of the book and Kaunas 2022. The Image of the Beast is officially set and is copyrighted by “Kaunas 2022”. Merchandise including pandemic masks, shirts, bags, stickers and posters is being produced and will accelerate. There are murals with the Beast planned ongoing drawing and story-telling competitions and workshops. Cases of unauthorized usage of the image build up which means that the Beast is on its way to become an icon.

The Mythical Beast is officially asleep now and does not appear “in person”. This is to build anticipation because the Beast and stories connected to Him will be extensively used in the Contemporary Myth of Kaunas Trilogy - the grand events of the Title year. By the way – from now on the Beast has its own personal perfume - a limited edition will be available, and a special Beast Scent point is being installed at our head office.

“KAUNAS 2022” OWN CHANNELS AND IMAGE COMMUNICATION

We actively use our own platforms such as www.kaunas2022.eu, www.forumas.kaunas2022.eu, www.modernizmasateiciai.lt, www.visikaipvienas.lt, www.kaunolegendas.lt, www.dizainaskaune.lt (Total 300 000 visitors in 2020) and related social network channels (Facebook, Instagram, Linkedin, etc.) in two languages mainly. In 2020, “Kaunas 2022” made 582 (Facebook) and 69 (Instagram) posts and published 86 videos in social media (Facebook and Youtube). Our Facebook posts in 2020 reached 1 901 317 people. In 2021, “Kaunas 2022” made 434 (+ various campaigns) Facebook posts, 167 (+ various campaigns) Instagram posts and 1800+ Instagram Stories. All social media posts (Instagram, Facebook, LinkedIn) are bilingual (Lithuanian & English).

Our posts on social media channels (Facebook & Instagram) reached 8 002 935 in 2021 so far. In 2021, we gained 3 443 (23 373 in total) new Facebook followers and 1808 (8 660 in total) new Instagram followers.

To keep in line with “Kaunas 2022” visual identity and recognisability, we have strong inner monitoring for any kind of logo usage, regularly update our merchandising, produce common style of all related websites and events. For 2021 and 2022 we have distributed the visual identity signs to our programme partners, and, till the opening of 2022, we are making the city and district branding visible.

MEDIA PARTNERS FOR LOCAL COMMUNICATION

Kaunas 2022” has signed partnerships with the main media partners for local communication:

Official broadcaster of whole programme:
LRT – national TV, radio, and online portal (www.lrt.lt);
15 min – one of the most visited news portals in LT (www.15min.lt);
“Kauno diena” regional newspaper and online portal (www.kaunodiena.lt), which covers the reach of audiences in both city and district but is also well read in other cities of Lithuania.

Kaunas Plinąs Kultūros – the most popular free culture magazine, that can be found either in public places of Kaunas and other biggest Lithuanian cities (published in Lithuanian and English). “Žmonės” – a group of popular magazines and online platforms. We have also reached an agreement with National News Agency ELTA (www.elta.lt), most popular and biggest news portal DELFI (www.delfi.lt). And number of niche outlets.
In Spring we’ve implemented a large-scale multi-channel local integrated marketing campaign “MES IŠAUGOM” (“We Grew Up”). It was dedicated to Lithuanian audiences with the goal of raising awareness that Kaunas grew from temporary to contemporary. It was important to reach the communities, the people of Kaunas districts, to show the projects real diversity. We have chosen the way to create the most real, authentic, informal portrait of Kaunas, with real street poetry (slam) and real story of this city. For the TV video advertisement, the most characteristic images and archival materials of Kaunas were selected. It is decades of life, memories, nostalgia of the city and its people, and at the same time an understanding of the way, what Kaunas was and what has become now - the European Capital of Culture.

Key visual of this campaign with the copy “WE GREW UP” became an outdoors and digital campaign. And the result – a huge amount of earned media. Prime time TVC premiere on national TV, news, articles, interviews, and initiated discussions about Kaunas identity and the ways to represent it.

Multi-channel campaign scope and results:
- 15'300 s. TV clip airtime on national TV
- 2'970 s. radio clip airtime on national radio
- More than 20 ad placements in newspapers and magazines
- More than 186 000 radio clips broadcast on Spotify
- More than 335 000 TV clips broadcasts through out of home screens
- More than 2,16 million TVC broadcasts on YouTube and video on demand platforms
- More than 17,4 million banner ad shows on main national news sites and through Google

The campaign received a very positive response on social media and the impact was felt through multiple metrics: 2x growth of followers on social media, 4x growth of newsletter audiences, 8x increase of people signing up to volunteer, 12x increase of direct flow to the website. And the most important - more people proud of Kaunas, more diverse communities involved and aware about Kaunas – European Capital of Culture 2022.

And finally, campaign also got international recognition in the small countries Marketing awards „BestBaltic” and received gold medal in the Integrated Marketing Campaign category. In addition to this, it was awarded Bronze for Film craft in Lithuanian creative marketing awards ADC.

We communicate our program results to local and international audiences through regular visual reports, as this of 2020: RESULTS OF 2020

We regularly provide the reports online.

Reach of audience in 2019, by statistics of Mediascope Agency, which uses the Gemius methodology, was more than 576 million. In comparison to 2018 (365 million), the audience reach increased by more than 60 %). By September 2021, the reach of audience is counted to 1,4 billion (numbers grew up 250% in 1,5 year). The highest reach numbers are covered by internet and TV. Having the statistics and tools to analyze the best reach, we adapt our communication strategy towards the effort to inform and include as many target groups as possible through different channels.

INTERNATIONAL COMMUNICATION STRATEGY IS BASED ON:

1. Partnerships with LT-based tourism agencies such as “Kaunas IN” (municipal agency for city promotion) and “Travel Lithuania” (National Tourism Board www.lithuania.travel), participating in tourism fairs and having common communication campaigns (5 fairs in 2021 and 5 in 2022; 4 campaigns each year).

2. Having communication campaigns and cultural collaborations among various Kaunas city and Kaunas district networks and participations in processes: UNESCO Design Cites network; UBC network; New Hanseatic League network; European Heritage Label; UNESCO World Heritage Label networks, etc. (special season and proposal to participate in grand events is being prepared).

3. Cultural production (exhibitions, stage art performances) export to other ECoCs and other European cities, as Kortrijk, Tartu, Novi Sad, Esh-sur-Alzette and others).

4. Visits from international media journalists were organized not just for groups at an International Media event, but also for individual visitors.

5. Partnership with Esch-sur-Alzette 2022 and Novi Sad having common international communication campaigns. We’ve prepared a joint video.

6. Communication campaigns by partner JCDecaux internationally – outdoor advertising in various European cities.

7. Communication agency service will cover the target countries: Latvia, Estonia, Poland, Belarus, Russia, Germany, UK, Norway, Denmark, Finland, Israel, etc.

All preparational steps (public procurement procedures, contracts) are being finalized, main actions internationally planned for November 2021 and 2022.
TOURISM STRATEGY

We’ve developed our target markets. Those are cities which:
- have direct flights to Kaunas or Vilnius
- are within 5-6 hours’ drive from Kaunas
- Kaunas has already been in longer partnership with
- Kaunas 2022 twin cities, UNESCO Creative Cities, UBC and other networks’ cities

Working closely with Kaunasln (municipal agency for city promotion) and Travel Lithuania (National Tourism Board) as well as with number of partners, such as Lithuania national stand in DUBAI World EXPO, we are sure that our efforts will give positive results attracting tourists not just from our region, but from distant countries as well.

PRIVATE SECTOR FUNDING

Our goal for private sponsorship is 2 M EUR, which we expect to cover by combining money flow and in-kind income. Our media partners bring enormous financial input through in-kind sponsorship, which alone will reach from 1 to 3 M EUR in-kind.

Considering the circumstances, we have changed our tactics and are not looking for a general sponsor for 1 M EUR support. Instead, we attract more smaller players to the field. Constant contacts and negotiations are in full swing, as the title year approaches, more businesses are expressing their wish to join.

In the spring, we have organized special campaign to attract sponsors “We’ll employ your brand”. It went both outdoor and had become digitally viral.

Regular events attract small scale inputs from 5 to 10 private sponsors each time.

KAUNAS FLUXUS AIRPORT

We have successfully lobbied to change the name of Kaunas International Airport to Kaunas FLUXUS Airport this September. This remarkable achievement was made possible with the help of our private and public-sector sponsors and partners. Kaunas based company IMLITEX has financed the project, as Lithuania Airports (state owned company) backed the idea and made happen.

Also, with our long-term partner KAUTRA (coach company) we have organized a special song-music-light bus, going around Kaunas courtyards and districts bringing joy and happiness at Christmas time.

We are creating “Friends of Kaunas2022” club for partners and sponsors, we do share and exchange ideas, news, and updates constantly with our partners and sponsors.

Regular meetings with regional and national level business and other organizations, such as Chambers of commerce, Rotary and alike always happening. We do have strong bond with Lithuanian Marketing Association (LiMA), where Head of department has quarterly presentations.

VISIBILITY OF ECOC AS EU INITIATIVE

Kaunas 2022 communication since its first steps in 2015 (preparatory phase) clearly expresses that ECoC is an EU initiative, and it is a project which displays variety and richness of European culture. The flag of the EU is present at our office and in all branding of events locations, the logo of EU is inseparable part of every communication means we use. We are proud to be a flagship project of European culture.

OUR CONTINGENCY PLANNING CONSIDERING DIFFERENT DEVELOPMENT SCENARIOS OF THE ONGOING PANDEMIC

In the last two years of activity, the Kaunas 2022 organization has been subjected to the same type of challenges as the rest of the sector and has been experimenting with different event and activity formats which corresponded the health and safety regulations dictated by the pandemic. The second monitoring report by Kaunas 2022 mentioned several projects, such as Culture to the Courtyards (adapted later in several other cities in Europe), which were initiated as a form of continuing activities which would consist of public safety measures.
Since then, culture sector has been returning to its more active state and at least in Lithuania, can perform in a relatively normal way. However, some safety rules proposed by the Lithuanian national government must be met, one of which is absence of the most sensitive unvaccinated part of the population in mass gatherings and closed spaces, which has now become the universally adopted rule in Lithuania and requires the organizers to take care of the thorough registration of the event visitors.

Even though the culture sector in Lithuania is now allowed to operate as it used to, Kaunas 2022 do understand a worsening of the pandemic situation is still a possibility, as well as the renewal of restrictions imposed on culture sector. Furthermore, despite the easier regulation of the sector, we as organizers feel the responsibility to ensure our events not just comply with the official regulations but offer maximum security for the audience.

How are we planning our future events in the light of the uncertainty during coronavirus?

- The projects have been discussed with all 76 partners of the program and contingency plans were estimated. In case of new regulations, each project is planned to be discussed with the organizers in order to find the best scenario of the project. Our goal: the most value for the audience with the least loss of quality and international dimension of the content.

- The events planned by Kaunas 2022 have a contingency plan which is built on the experience of regulations which had been previously introduced in Lithuania. For example, one of the most massive events planned in the Kaunas 2022 program – the official opening on 22nd January 2022, has several scenarios. The first is based on a presumption of more strict regulations than are currently applied for events. In this scenario, we plan to use such safety measures as a verification of the covid vaccination certificate and registration of the audience members, division of the audience into small 500 person sections and re-introduction of face masks. If the event regulations remain as they are today, some of these measures might be withdrawn. If the event regulations become stricter, and as a result any mass audience event is not possible to organize, the main show of the opening night would be moved indoors and limited to TV broadcast. Apart from the main show, which is planned for mass audience, Kaunas 2022 is also planning a series of events in the central part of the city which will include a wide variety of smaller scale activities. In case of strict event safety regulations, some of these events have a very high chance of being implemented in any case. For example, part of the events is design exhibitions in shop windows, light installations and sound installations in public spaces, an urban game, etc. Each of these open air initiatives can be realized even in case of total event restrictions.

- Following the recommendations of experts after the second monitoring, Kaunas 2022 in cooperation with Impact Foundation, has been organizing new trainings within the Tempo Academy of Culture framework. One of the main trainings of the last year was specifically focused on audience development in the pandemic times and offered a specially prepared course of lectures, which included topics such as audience development and accessibility, adjusting the activity in the light of pandemic regulations, mastering the online tools such as SEO and WEBmaster sessions. Led by Agata Etmianowicz, the cycle of seminars attracted over 180 participants representing different culture organizations not only from Kaunas, but all Lithuania, and offered a present of a thorough online accessibility audit and SEO recommendations from experts of online technologies.
Legacy plans
During past months Kaunas 2022 has negotiated intensively the Legacy plans with all project stakeholders and partners.

During the past months Kaunas 2022 has negotiated intensively the Legacy plans with all project stakeholders and partners. As of today, it is highly probable that the organization Kaunas 2022 will be reorganized, municipal stakeholders will step out at the end of 2023. However, the institution will continue its activities as NGO, gathering its budget for networking among other ECoC cities and ensuring Capacity Building for local cultural sector and internationally by applying to various national, municipal, and international funds.

Even though Kaunas 2022 organization will become a vanishing mediator, no project will be left aside, because all newly born initiatives have their owners. The long term and continuity of recently born festivals and activities are ensured by at least 40 organizations. Some of them are established particularly to run projects after 2022. For example, youth organization „Emerging Kaunas“ was established to run capacity building program, which is run here in Kaunas since 2017, and is based on tutoring and training in practice, collaborating with local cultural institutions. Some other institutions were born to be hosts of such festivals as ConTempo (international stage art festival) or Fluxus festival – it will be run by association titled „Community Laboratories “. New organization was established this year by current Kaunas 2022 team members, Community platform leaders, to keep their competences in use. They are invited regularly to share experiences and practices to many places in Lithuania and abroad, currently they are working on methodology, which will be published in both languages – Lithuanian and English later this year.

Kaunas 2022 is preparing a set of open-source methodologies, following four faculties of Tempo Academy of Culture program: Communities, Youth, Cultural professionals, and Volunteering/Hospitality. Hope we will contribute with experienced knowledge sharing. In 2023, we will publish a rich set of methodological material to be shared worldwide.

During preparation years several long-term initiatives were born, and we are sure they will continue after 2022:

- European Capital of Culture Forum
- International Day of Happiness
- Courtyard Festival
- Fluxus festival
- CityTelling Festival
- Contempo – stage art festival,
- Design Event
- Landscape design festival Magenta
- Kaunas Literature Week
- Contemporary Neighborhoods (Kaunas District program)
- and others.

HOW WILL FINANCIAL SUSTAINABILITY BE ENSURED?

KAUNAS CITY MUNICIPALITY has its own tool – program to finance independent cultural initiatives „Initiatives for Kaunas “, where all organizations running festivals and initiatives, will apply starting from 2023. Before the European Capital of Culture year, it was an annual budget of 600 000 EUR approximately on this program. Counting new festivals established and bunch of other projects, it would be reasonable to allocate 1 M EUR for cultural projects in the city annually.

KAUNAS DISTRICT MUNICIPALITY is developing a program through which the sustainability of Contempory Neighborhoods would be assured. Municipality sees the title year as a platform for start regional development through contemporary culture.

LITHUANIAN STATE GOVERNMENT is also contributing to Kaunas 2022 legacy, while working now on the conversion of previous Kaunas Central Post Office building into International Modernism Centre. The Feasibility Study just recently commissioned by Culture Ministry proves the long-term effect of such a center which activity would start in 2023, according to schedule suggested by study. In upcoming months, the main decisions will be made at the State Government level. This process was only possible because of the networks and capacities generated by Kaunas 2022 Modernism for The Future team, impressive international network, and range of activities from heritage community to international conferences and Creative Europe artistic projects for interpretations of modernist architecture through arts of various media.

PARTNERS – CULTURAL SECTOR. The legacy to run European level programs will also be sustained, because majority of partners strengthened their international co-production element (which was a condition to become a program partner). A lot of organizations have already applied to various international funds, and shared budgets with other organizations. Let us give you an example. Kaunas National Drama Theatre until this year had not one single international co-production in repertoire. For 2022 they present 7 premiers, 5 from which are co-produced with theatres from Luxembourg, Germany, Scandinavian countries. It is an enormous jump in thinking and then acting for both administration and creative staff of the theatre.

For more detailed legacy planning please follow Annex VIII.

2. Culture professionals
THE EUROPEAN CAPITAL OF CULTURE FORUM forumas.kaunas2022.eu/en/ annually offers a programme of talks, discussions and practical workshops on the impacts and innovations of culture for the local and international culture professionals. At each event, around 450-600 people representing different creative fields meet in one place to listen, network, build new knowledge and skills in fields related to audience engagement, strategic planning, cross-sectorial and international cooperation, and more.

In September 2021 the ECoC Forum hosted more than 130 foreign guests, mainly representatives of European Capital of Culture Family Network. Forum became a platform for extensive presentation of the methods of Kaunas 2022 programme preparation and announcement of the programme highlights. All 7 sessions are available on Forum website:
forumas.kaunas2022.eu/en/

AUDIENCE DEVELOPMENT PROGRAMME (2018–2021) for culture professionals launched in autumn 2018; each year at least 10 organisations go through a course having group seminars and personal tutorship (international lecturers and tutors).

1.2.3. OBJECTIVE

Promote cooperation among culture, education, science, social service, and business sectors, implementing joint projects designed to increase the well-being of city residents.

2017-2018

Initiation of Round Tables (programme Wake it, Shake it) for development of cooperative projects; 2 cases running through autumn 2018. Activities of Fluxus Labas (community programme) are based on networking across the sectors.

2019-2021

The International Day of Happiness

Kaunas 2022 initiated an annual celebration of the International Day of Happiness (a UN initiative) which promotes the societal wellbeing factor as opposed to the commonly prioritised aim for an economic growth. Each year the celebration highlights a particular aspect related to the quality of life and invites different organisations to join this initiative by proposing their way to celebrate it. In 2019, The IDH highlighted accessibility as a key value in developing equality and access to public service. In 2020, the IDH was organised under the quarantine rules. Its programme was adjusted and offered a programme of online cultural productions for the audience at home. In 2021 IDH was still run on the quarantine mode, but many artistic performances took place in the open areas of the city, live broadcasting to national TV and news portals was ensured.

**2017-2018**

**INTERNATIONAL FORUMS** organised since 2018 is dedicated for the creation of networks of modernist cities. In 2018 (11 September) the topic of the forum was “The Value of Modernist Architecture as a Cultural Heritage: A Central and Eastern European Perspective”. It brought together more than 10 European cities and sites of Modern Movement architecture: Brno, Gdansk, Krakow, Birmingham etc. The forum discussed the potential of this heritage in shaping contemporary urban identity, its preservation and its use for tourism. More information: [https://forumas.modernizmasateiciai.lt/en](https://forumas.modernizmasateiciai.lt/en)

The theme of the 2019 forum was “From Modern to Contemporary: 20th Century Architectural Heritage Practices Based on the Tel Aviv Document for Cities of Modernism”. Based on the initiative of Tel Aviv in 2018, the Kaunas Forum discussed practical aspects of the implementation of the document, proposed measures for the preservation of the modernist heritage – innovative development strategies for urban areas with important 20th century heritage. 15 participants from: Tel Aviv White City Center, UNESCO World Heritage Center, Kaunas City Municipality, Barttlet School of Architecture, Politecnico di Milano, Getty Fundation, Berlin TU, ICOMOS Germany etc. shared their experience.

**2019-2021:**

*Kaunas 2022 programme Modernism for the Future* is taking part in the international networks since 2018 and already involved more than 100 new partners (institutions and professionals) from Europe and worldwide: London, Asmara, Berlin, Brazil, Gdynia, Le Havre, Rabat, Chandigarh, Tel Aviv etc. Since 2019 Kaunas modernism also became a member of international networks:

- **EUROPEAN HERITAGE DAYS:** [europeanheritagedays.com](europeanheritagedays.com)

- **JOINT PROGRAMMING INITIATIVE ON CULTURAL HERITAGE AND GLOBAL CHANGE:** [Heritage Research Matters](https://heritagerearchmatters.com)
| Kaunas 2022 programme **Designing Happiness** represents Kaunas at UNESCO Creative Cities network – Kaunas as UNESCO Creative City of Design: [www.designcities.net/](http://www.designcities.net/)  

Kaunas 2022 is applying to organise a subnetwork meeting of UNESCO Creative Cities of Design in 2022 in Kaunas during Kaunas Design Festival. Design program is now communicating with each City of Design trying to find possible cooperation for 2022. For example, Kaunas and Kortrijk (Belgium) is working on 5 joint projects (5x5 methodology, exhibition, K-Totem and others) with the help of the Flemish government, Department of Foreign Affairs.  

Kaunas 2022 regularly represents Kaunas cultural sector in cities networks such as the ECoC, UNESCO creative cities network and introduces many other new opportunities for Kaunas based artists and organisations to partner with other European cities and networks. For example, together with 8 more ECoC cities, Kaunas entered the ECoC Tandem programme run by the European Cultural Foundation by supporting the participation of 3 cultural organisations from Kaunas and Kaunas District, all of which have successfully developed at least one strategic partnership with other ECoC city-based partners.  

The Assembly of International Design Networks is planned for 14th of 2022 to take place in Kaunas. The Steering Committee consists of representatives of these international networks: UNESCO Creative Cities Design Category, iCO-D, Beda, EIDD, and local networks as Lithuanian Design Association and Lithuanian Design Forum. The Assembly will host more than 200 design professionals from all around world to tackle topics of sustainable, green and happy cities we dwell.  

Due to active participation at European Capital of Culture Network (more than 30 active cities), Kaunas 2022 announces more than 10 open calls for creative co-operation annually.

Encourage initiatives of young artists and creators, support cultural events and phenomena for/by youth.  

**MODERNISM FOR THE FUTURE**  

Since 2018, we opened the social network of modernist heritage [www.modernizmasateiciai.lt](http://www.modernizmasateiciai.lt) and the profiles of 365 modernist buildings was created, some of them has videos with house owners: [modernizmasateiciai.lt/gydytojo-p-gudaviciaus-namas/](http://modernizmasateiciai.lt/gydytojo-p-gudaviciaus-namas/). Together with the owners of the buildings we regularly organise creative workshops (on heritage restoration methods, for example), excursions, meetings and other practical activities.  

**ARTISTIC MOVIE**  

Modernist heritage is an inspiration for contemporary art. We invite artists to become the interpreters of modernism, and to take a creative and contemporary approach to the modernist heritage and its history. Together with more than 300 local and international partners (private house owners, artists, culture institutions etc.) we started to work with more than 70 artistic residences and events for 2022. The main artistic project - 45 minute film KLOSTES (The Folds), involving different age and interest groups (at least 500 people throughout the period): Kaunas students, video and audio students, volunteers, residents of modernist buildings, creative writing enthusiasts, etc. was launched. Two months residencies took place in Kaunas in 2020 and 2021 (Irish artists worked in Kaunas even under Covid restrictions), which included more than 500 local population and about 100 professionals to contribute to its production. [www.klostes.com/home](http://www.klostes.com/home) The film will be premiered at international festivals early 2022, and presented to European Capital of Culture audiences in the middle of 2022. |
INTERNATIONAL CONFERENCES

International conference held 12–13 Sept 2018 at Žalgiris Arena in Kaunas involved more than 40 experts and professionals from abroad and more than 300 local participants. Presenters analysed modernist architecture phenomena worldwide – in Kaunas, Tel Aviv, Ankara, and many European cities. Representatives from the UNESCO commission, other modernist UNESCO sites, and partner institutions were present: Prof. Mart Kalm (Tallinn Academy of Arts), Prof. Matthew Rampley (University of Birmingham), Vendula Hnikova (Czech Academy of Arts), Ines Weizman (Bauhaus-Universitat, Weimar), Michal Wisniewski (International Cultural Centre, Krakow), Bilge Imamoglu (TED University, Ankara), Mark Crinson (Birbeck University of London), Edward Denison (The Bartlett School of Architecture, UCL), Mike Turner (UNESCO Heritage adviser), Sharon Golan Yaron (The White City Centre, Tel Aviv), Tarik Oualalou (Architecture office QUALALOU+CHOI), Parta Mitter (University of Sussex), Prof. Giedrė Jankevičiūtė (and others).

In 2020 instead of the school (because of Covid restrictions to travel) Kaunas 2022 partnered with Architektūros fondas for programme "Building narratives": futurearchitectureplatform.org/programme/94/building-narratives/

In 2021 Summer School was implemented online by partner Kaunas Technological University (KTU Architecture and Urbanism Research Centre). Vasaros mokykla: RE-TOPIA: optimistiškai tarp praeities ir ateities

MoFu 365/360 – Creative Europe project (residencies and exhibition on artistic interpretations of modernist architecture)

2020 -2022 is dedicated to artistic interpretations of modernist architecture by leading a Creative Europe project Modernism for the Future 360/365. Five countries are involved in this residency based and various artistic media enhanced project: Lithuania (Kaunas), Ukraine (Lviv), Czech Republic (Brno), Belgium (Kortrijk), and Israel (Tel Aviv). The final results of the residencies will be presented at international exhibition opened in iconic Kaunas modernist architecture building – Kaunas Post Office in January 2022.

1.3.3. OBJECTIVE

Conduct research and other preparatory work in order the modernist architecture and urban planning of Kaunas to be on the UNESCO World Heritage List and awarded the title of European Capital of Culture 2022 as well as to ensure smooth participation in these programmes.

Since 2018 Modernism interpretation centre (special programme of Kaunas 2022 for professionals) started workshops, forums and other smaller scale event aiming to integrate into international professional networks (i.e. Baltic Region Heritage Committee (BRHC, JPI CH, etc.), to develop cooperation with international institutions (i.e. Bartlett school of architecture, DOCOMOMO Germany, The ICOMOS Twentieth Century Heritage International Scientific Committee etc.) and to share international experience with local professionals. From 2019 institution 'Modernism interpretation centre' (MIC) was established by Vaidas Petrušis (Head of KTU Architecture and Urbanism Research Centre) to provide all activities mentioned above and became a partner of Kaunas 2022.

From 2017 Kaunas City Municipality started the preparation process of UNESCO World heritage nomination. The programme of "Modernism for the future" acting in this process as a partner responsible for communication issues with local community via events and meetings (communication plan is in the process). In 2019-2021 five restoration workshops were held during the European Heritage Days (in cooperation with The Department of Culture under the ministry of Culture in Lithuania).

Starting from 2021 KTU Architecture and Urbanism Research Centre took over organisation of international Summer School for architecture professionals and enthusiasts, which helps to grow international partnerships needed for modernist architecture and heritage topics to be analysed and presented locally and internationally.

1.3.4. OBJECTIVE

Establish the position of Kaunas as a city of design, develop a targeted policy of design promotion in the city, focus on design culture and design-based thinking on all levels: creativity, production, business, politics, education, and encourage integration of social design into cultural and creative sectors.

Membership. In 2018 Kaunas 2022 became a member of EIDD Design for All Europe. In September board members of EIDD (Pete Kercher, Onny Eikhaug, Pepetto Di Bucchianico, Nuno Sá Leal, Jasmien Herssens, Terhi Tamminen, Markus Haas, and Josyane Franc) met in Kaunas. The annual meeting coincided with the presentation of results and feedback provided to participants of a 4-month Design for All workshop led by Pete Kercher about improvement of accessibility to Ch. Sugihara House Museum which annually accepts up to 17 000 visitors.

Designing Happiness program is working on final programme of new design event – Kaunas Design Festival. It is planned as multidisciplinary design event (pre-edition in 2020, start on October 2022). Main goals are to consolidate Kaunas as city of design and to strengthen image of Kaunas as city of design (political, socio-cultural, socio-economic goals). Target audience: designers, creatives, companies, industries, start-ups, cities, regions, policy makers, communities, cultural institutions. Planned activities: expositions, conferences, meetings, workshops, actions. Among other international events it is planned to organise worldwide spread design communities to meet in Kaunas in 2022: EIDD, UNESCO Creative Cities of Design, BEDA, iCO-D at the Assembly of Design Networks (14th October 2022).
2. PRIORITY AREA. INCREASE IN THE AVAILABILITY OF CULTURE, STRENGTHENING COMMUNITY-LED AND CIVIC MINDED SOCIE

2.1. GOAL
Increase participation of citizens in culture and ensure availability of culture

2.1.1. OBJECTIVE
Increase the inclusion of city residents into the cultural life of the city, encourage decentralisation of culture and ensure opportunities for participation in culture in every elderate (local administrative unit, seniūnija) of the city.

2017-2018
Community programme WE, THE PEOPLE
Kaunas 2022 since its establishment made big efforts and real achievements raising community activism and social awareness through the network of Fluxus Labas (Creative Community Laboratories). Starting in 2018, 8 Fluxus agents were contributing their time to networking in the neighbourhoods of Kaunas city and District. From April to October 2018, they contacted more than 100 people in person, made a list of local contacts, researched existing activities in the communities and invited people to join more than 90 events which were attended by 3,600 people. The second cycle of training of Fluxus Agents started in October 2018 and continued until April 2019. 9 new agents joined the Kaunas 2022 team after the course. The main goal for the years 2018–2020 is networking and acknowledgement of existing initiatives and talents inside communities, raising self-awareness of local creatives and activists.

2019-2021
FLUXUS LABS - are the hubs of communities spread through Kaunas cities’ neighbourhoods. It aims to involve local people to act actively in cultural community activities and to cherish their own culture. In 2017 – 2018 17 Fluxus agents were working in different elderates (local administrative units). In 2019 15 creative community projects, 270 creative workshops with community members, and 55 community meetings were implemented; during all kinds of activities 4235 active participants were involved and 2967 observers; Fluxus agents worked together with 26 artists and 13 partners from different sectors (business, social, education). The methodology of how Fluxus agents work with communities and the concept of Fluxus laboratories is planned to become a legacy of the project.

In 2019 we launched 2 new projects: Community Initiatives and Fluxus Courtyard. These projects aimed to work with already established communities and to support their projects and to find new ones, who want to participate in Kaunas 2022 Community Cultural program and to try out our methodology working with communities. Community initiative project: 5 community projects were supported (29 community events, 1184 participants, video: www.youtube.com/watch?v=gu5ByTJavPw; www.youtube.com/watch?v=FybWQrR8zH4; www.youtube.com/watch?v=g6K8V8IVDQEM; www.youtube.com/watch?v=yQKwudoW_2k; www.youtube.com/watch?v=j3hgYGVwV-s).

FLUXUS COURTYARD project: more than 10 community arts projects were implemented in 2019-2021, causing sincere and visible changes at citizens courtyards: www.youtube.com/watch?v=-fwPJMkClIU

FLUXUS FESTIVAL
Started in 2018 with 1500 participants, 29 community organizations involved in the preparation of the festival, video: www.youtube.com/watch?v=KZHypMjQGps), the same day as a festival we organizes COMMUNITY FORUM, during which we had 7 speakers and 118 participants; Backyard festival (1000 participants and 46 partners involved, video: www.youtube.com/watch?v=t278YwhgOAg ). These festivals are planned to become a legacy of the project.

Fluxus festival grew up into massive celebration – a City Carnival, beloved by citizens with bigger and bigger attention and participation.

### UPYNĖS

Initiative “Upynes” aims to revive riverbanks for cultural and community activities. During 2019 2 feasts, 3 creative workshops in which participated 270 people. Subculture program for industrial music Matters organized the symposium, during which 13 different events were organized and 413 participants were involved. In 2020 till May we organized project Quarantine Community Initiative project (5 online projects) and Culture in the Courtyard project, during which we organized 17 different performances (dance, music) in multi-apartment building courtyards (approximately 800 people were reached). These initiatives were implemented as a reaction to COVID-19 and quarantine restrictions for cultural and community events (video: [www.youtube.com/watch?v=psh-zAD92C8&t=0s](https://www.youtube.com/watch?v=psh-zAD92C8&t=0s)).

Total amount of directly reached population through Kaunas 2022 programme from 2017 until now (October 2021) is counted for more than 790 000 people, who took place at 1100 community events, and other 3000 events and activities.

### 2.1.2. OBJECTIVE

**2018**

In September 2018 Kaunas 2022 team members participated in the meeting of the Kaunas City Municipal Committee regarding adaptation of cultural events to the needs of people with disabilities. Kaunas 2022 has invited different organisations representing people with disabilities to cooperate in ensuring better accessibility to cultural offerings – and initial meetings with representatives of these organisations have taken place. The aim of this cooperation is to prepare accessibility plans for cultural institutions and Kaunas 2022 events, and to promote enhancement of accessibility in the city. Kaunas 2022 Marketing and Designing Happiness teams were working on the preparation of such a plan.

Support for inclusive participation and co-creation in cultural events was also embedded in Fluxus Labas activities (for example, the Šančiai festival in a private courtyard).

All Kaunas 2022 events and activities have been and continue to be free of charge.

**2019-2021**

As member of “Design for All Europe” (EIDD) (since 2018), “Kaunas 2022” was taking an active role to promote design for ideas – design for human diversity, social inclusion and equality – and aims to enhance accessibility and enable all people to have equal opportunities to participate in every aspect of society and in culture in particularly. In 2018-2019, the programme “Designing Happiness” held 3 strategic design-for-all workshops collaborating with experts of the EIDD network and international partners. Based on partnerships with local and international accessibility experts, a set of accessibility improvement guidelines for the cultural sector has been published for free use in 2019.

**ACCESSIBILITY GUIDE** is a toll to understand a Design for All concept. It is useful for any kind of organisation or company which provides service to society members at any city or country worldwide: [kaunas2022.eu/en/accessibility-guide/](https://kaunas2022.eu/en/accessibility-guide/)
### 2.1.3. OBJECTIVE

Enhance community culture and amateur art, encourage cross-cultural dialogue, variety among subcultures, include of ethnic communities and youth in the creation and consumption of art, raise awareness of the importance of memory and cross-generational projects.

**2017-2018**

**MEMORY OFFICE** activities are based on collecting the personal memories of local people: holocaust survivors, members of ethnic minority communities. This is a link to videos of these stories: [www.atmintiesvietos.lt/en/kaunas-2/interviui-su-tautinemis-kauno-bendruomenemis/](http://www.atmintiesvietos.lt/en/kaunas-2/interviui-su-tautinemis-kauno-bendruomenemis/)

From November 2017 Kaunas 2022 was preparing a book on Kaunasian Jewish Culture. The book was published at the end of 2020. An English translation is envisioned for 2021.

Kaunas 2022 initiated and launched a new festival, the CityTelling Festival. The first edition took place in autumn 2019. The Festival is based on interdisciplinary artistic approaches towards local history and memories as well as cross-generational projects.

**2019-2021**

To address the topics of ethnic and cultural diversity we launched a new initiative – a **CITYTELLING FESTIVAL** (see: [istorijufestivalis.eu/en/](http://istorijufestivalis.eu/en/)) which aims to reveal the diversity of the past life and to encourage dialogue between different communities in the city. Annually about 30 to 50 different events are being organised, around 20 organisations and communities are involved. Most of the projects involved the stories of multi-ethnic history and of the WWII (Kaunas Ghetto, "Wolf kids", etc.). Muslim, Russian Orthodox, Jewish communities and Kaunas expats not only became participants but also active organizers of the festival events. The festival is planned to become a legacy project involving ethnic and cultural minorities of the city and their diverse stories (video: [www.youtube.com/watch?v=rmAcKMoLieM](http://www.youtube.com/watch?v=rmAcKMoLieM)).

CityTelling Festival in 2022 will consist of various exhibitions, theatre and music performances, Kaunas Kantata (Phillip Miller, Jenny Kagan) new production included, and World Litvak Forum (29-30 September 2022), which will become a platform for memory topics, raise of awareness and reconciliation with historical past for the sake of future.

### 2.1.4. OBJECTIVE

Ensure information and availability of cultural knowledge for all citizens and guests of Kaunas.

**2017-2018**

The communication and marketing department of Kaunas 2022 was working according to strategic communication plan, spreading information about Kaunas 2022 events and partners’ initiatives through the most accessible media channels: 4 National TV and radio (LRT) channels, news portals 15min.lt and kaunodiena.lt, national magazine IQ, the most popular social networks (Facebook, Instagram, YouTube), and others. The monthly culture magazine Kaunas Full of Culture (10,000 printed copies, plus online version) and the national news portal 15min.lt have a special Kaunas 2022 chapter.

**2019-2021**

Main local media partners and channels:

- **LRT** – national TV, radio, and online portal ([www.lrt.lt](http://www.lrt.lt));
- 15 min – one of the most visited news portals in LT ([www.15min.lt](http://www.15min.lt));
- “Kauno diena” regional newspaper and online portal ([www.kaunodiena.lt](http://www.kaunodiena.lt)), which covers the reach of audiences in both city and district, but is also well read in other cities of Lithuania.
- Kaunas Pilnas Kultūros – the most popular free cultural magazine, that can be found either in public places of Kaunas and other biggest Lithuanian cities (published in Lithuanian and English);
- “Žmonės” – a group of popular magazines and online platforms.
In spring of 2021 Kaunas 2022 marketing team implemented an extraordinarily successful, large scale multi-channel local integrated marketing campaign “MES IŠAUGOM” (“We Grew Up”).

Campaign received a very positive response on social media and the impact was felt through multiple metrics: 2x growth of followers on social media, 4x growth of newsletter audiences, 8x increase of people signing up to volunteer, 12x increase of direct flow to the website. And the most important - more people proud of Kaunas, more diverse communities involved and aware about Kaunas – European Capital of Culture 2022. Campaign also got an international recognition in the small countries Marketing awards "BestBaltic" and received Gold medal in the Integrated Marketing Campaign category. In addition to this, it was awarded Bronze for Film craft in Lithuanian creative marketing awards ADC. Main video of the campaign: Kaunas išaugo ir žengia į Europos kultūros sostinės metus

The first INTERNATIONAL PRESS EVENT – The announcement of Kaunas 2022, Novi Sad 2022 and Esch 2022 programmes, took place in Kaunas on 22nd September 2021. It gathered to Kaunas more than 30 journalists from Europe and even more form Lithuania. Together with around 100 ECoC network guests, the event was visited by 300 people. The live broadcast attracted more than 8000 viewers. The link to the Press Event is here: www.youtube.com/watch?v=ao_Kz_-cURo

Broad international communication campaign of European Capital of Culture Programme will be started in November 2021.

Kaunas Programme is announced on website: kaunas2022.eu/en/programme/

<td>Encourage organisation of civic society and youth, encourage local communities and individuals to participate in volunteer-based programmes, in cultural management and in planning of city development</td>
<td>The youth programme Kaunas Challenge, launched in 2017, includes young people (15–18 years old) in analysing the profiles of local cultural institutions and providing expertise about their generation’s needs and expectations regarding the proposals of cultural institutions. Kaunas 2022 also gathers community voices and comments on cultural accessibility through Fluxus Labas activities, which have just started this year and are in progress until 2022 and beyond. The Fluxus Labas initiative is based on volunteering for the community and promotes the concept of social usefulness as a way of co-living and co-creation.</td>

| 2019-2021 | In 2019 Kaunas 2022 started a volunteering program. It is designed to encourage the citizens to become creators and ambassadors of their city through volunteering in cultural activities and to increase professionalism in volunteering practices in the cultural sector. Since the beginning of the program in February 2019, more than 1000 volunteers of different ages and skills registered to help during events and online. The volunteering program offers different trainings for volunteers about tour guiding, hospitality, accessibility, etc. Here is a link to the volunteer’s guide from the most recent training: kaunas2022.eu/wp-content/uploads/2020/03/Savanoriu-Leidinys-V5_WEB.pdf |

| Assessing the impact of ECoC: In order to assess the external impact of ECoC, a public tender has been issued to invite research teams to participate in the analysis of the impact and conduct research. The external company is already working in stages of assessing economic, social and cultural impact of ECoC. The researchers are required to adapt mixed methods of quantitative and qualitative analysis. The statistical analysis will be conducted by comparing various indicators of social, economic and cultural processes. Researchers will aim at comparing the performance of Kaunas' cultural field before and during the events of ECoC. The analysis of statistical data will be supplemented by data collected from surveys and discussions with focus groups. Broad surveys will be implemented starting from October 2021 until March 2023, and results of the evaluation of the impact of Kaunas 2022 will be presented to stakeholders in July 2023. |
### 3.1. GOAL

#### 3.1.1. OBJECTIVE

Encourage and motivate local enterprises to contribute to activities of the cultural and creative sector

- **2017-2018**
  
  A marketing plan and individualized partnership proposals to more than 15 business companies have been prepared and co-operation for long-term activities pre-discussed. Kaunas 2022 has already collaborated with more than 70 small, medium and large-scale business partners from media, production and IT technologies fields. The total amount of cash and in-kind support for the project in 2018 was 83,000 Eur.

- **2019-2021**
  
  From 10 to 30 stakeholders, depending on the size of a particular event, usually contribute to Kaunas2022 events. For example, in 2019, 10 information partners, 17 (5 of them were business partners) smaller partners and 3 large-scale sponsors contributed to the „Citytelling Festival“. One of the major events „International Day of Happiness 2020“ involved 5 information partners, 3 large-scale and 6 smaller partners. One of the main sponsors of „Kaunas 2022“ was very strongly involved and highlighted during the project „Culture to the Courtyards“, as well as the title of „project presents“ was received by the national television.

  For each event, according to its content, Kaunas 2022 integrates the most suitable business and information partners. Usually in the artistic part of the event, except the involvement of small creative businesses, 10-20 small business enterprises contribute to the creation, production and launching of an advertising campaign. They are IT service companies, photographers, videographers, souvenir production companies, freelance artists, printers, broadcasters, etc.

  About 200 000 Euros were saved in the organizational budget because of the involvement of information and media partners’ involvement in 7 integrated communication campaigns through 2019-2021.

#### 3.1.2. OBJECTIVE

Encourage business investment in the use of heritage buildings as well as in sustainable and responsible use of heritage sites owned by institutions

- **2017-2018**
  
  Initial contacts with residents and owners of modernist buildings have been established. Examples of good heritage preservation practices and private investments are publicly promoted in order to communicate the values of modernist heritage and to encourage other owners or investors to explore the opportunities of this cultural phenomenon of Kaunas.

- **2019-2021**
  
  To support heritage interpretation activities, as well as to invest in restoration of buildings, Kaunas City Municipality planned to maintain the current level of yearly financial allocations (30,000 EUR in 2015, 400,000 EUR in 2016, 1 million EUR in 2017, 667 088 EUR in 2018, 544 468 EUR in 2019). Some of the good examples of the restauration inspired to apply for this programme more actively: Ką nuveikė Kultūros sostinė 2020-aisiais: daugybė iššūkių ir naujų idėjų

  In 2020 more than 60 buildings got the support for restoration (865 000 EUR).
Seeking to promote the heritage of modernism and make it more attractive to the local business sector together with partners Kaunas 2022 create interdisciplinary projects. This is becoming an impressive way to rethink the value of this heritage among the local stakeholders. For example, the project DANCE + CITY with Dance theatre Aura was presented together with the national broadcaster (LRT):

www.youtube.com/watch?v=BNTLgryz9pY
www.youtube.com/watch?v=gQxF7EXSdR8
www.youtube.com/watch?v=4zVjhXSHcQ

One of the most exciting examples of encouragement of business investments into heritage lays on permanent partnership with private owners of modernist apartment / ambassadors of Kaunas 2022 (through 2018-2021). In 2021 fully renovated apartment (1929) was officially opened as Art Deco Museum: www.artdecomuzeijus.lt

3.2.1. OBJECTIVE

Promote development of the design sector, of innovative design products and of services for the well-being of society.

2017-2018
From June to September 2018 the Kaunas 2022 team invited Fionn Dobbin for the creative workshop UNHIDE KAUNAS, which served as a generator of concepts for innovative design for the Kaunas and Kaunas District design sector in order to make an impact on the well-being of society.

2019-2021
Designing Happiness program launched a new website dizainaskaune.lt particularly dedicated to design sector. Main mission and goals are to consolidate design community, promote design culture, to inspire and interest sharing design news and good practices, inform about open calls and main events from Lithuania and world-wide, to inspire and develop cross-sectoral cooperation. Target audience is design community, creative industries, businesses and industries as well as general society. The map of main subjects of design field in Kaunas and Kaunas design ecosystem will be present in the website and will be constantly updated. It will be open and friendly for feedbacks from users to be shared.

A Landscape Design Festival MAGENTA was started in 2020 by partner Šeimos laikas, which in 2021 took its second edition: landscapedesignfest.eu

3.2.2. OBJECTIVE

Create favourable conditions for the establishment of creative businesses in Kaunas.

2019-2021
In collaboration with Kortrijk (Flanders) city (partnering through UNESCO Creative Cities network) Kaunas 2022 together with Lithuanian Architecture Union, Kaunas Branch launched the programme 5 x 5. From 2021, Designregio Kortrijk rolls out the 5X5® method in Kaunas. Project merges business companies with design teams for development of new products and services. Five Lithuanian companies are selected by open call and designers designated to work for one year together. The results of the project in Kaunas and of the Flemish companies can be seen in an exhibition within the framework of Kaunas European Capital of Culture 2022.
| 3.2.3. OBJECTIVE | **2017-2018**  
Promote a model of tourism that is sustainable, related to local heritage and community, and that interacts with cultural ecosystems.  
2017 Interreg Europe project *Sustainable Tourism for Attractivity of Riverside Cities (STAR Cities)* was launched together with Val-de-Marne tourism board in Paris, Lazio region and Municipality of Rome, Hamburg, Romanian Ministry of Tourism and NECSTouR – the Network of European Regions for Competitive and Sustainable Tourism.  
The UNHIDE KAUNAS workshop developed several tourism ideas which will be used by Kaunas 2022 and partner organisations: Bed&Culture hospitality model, Culture Taxi car service and Culture Consierge hotline information, promotion of ecological food from Kaunas District through souvenir packages for Kaunas tourists, etc.  
2019-2021  
The ideas which were developed during workshop were deconstructed into an action plan which leads to launch in 2022. 2020 was dedicated to planning, strategy and the search for necessary partners. In 2021 strategic plan for tourists’ proposals was developed and started to be implemented. A hospitality package for European Capital of Culture guests consists of three proposals: Bed & Culture, Culture Ride, and Culture Host. |

| 3.3.1. OBJECTIVE | Based on partnerships with local and international accessibility experts, a set of accessibility improvement guidelines for the cultural sector has been published for free use in 2019.  
Several cultural institutions are co-financed for infrastructural improvements for accessibility. All major Kaunas 2022 events have requirements to ensure or improve accessibility for all participants. |
| 3.3.2. OBJECTIVE | Full year round in 2022 Kaunas 2022 will be holding exhibitions, discussions and other events in Kaunas Post Office building, which is abandoned modernist heritage venue, now looking for new usage possibilities. We will also adapt a lot of currently abandoned venues and buildings for temporary events of Kaunas 2022 programme.  
In 2021 Kaunas 2022 team and other partners contributed to the Feasibility study for this particular building and together with State Government three proposals for revitalisation of the building are prepared for Governmental decision.  
A study is presented here: [Kauno centrinio pašto įveiklinimo galimybų studija](#) |
3.3.3. OBJECTIVE

Improve the infrastructure of public city spaces, especially riverbanks, adapting them for recreational needs of city residents, for cultural entertainment and for creative businesses.

2017-2018
The DESIGNING HAPPINESS programme has a special branch/series of workshops including participation of local and international experts aiming to improve accessibility of the city and Kaunas District.

The S.T.A.R. Cities project was granted Interreg Europe funding and project activities started. The project will promote sustainable tourism development in riverside areas in 5 European Cities, including Kaunas.

In a special programme about riversides – Uplynės – in cooperation with the local NGO sector and local waterways authorities, Kaunas 2022 is promoting the actualisation and animation of riversides in Kaunas City and District. One of the recent initiatives involves the purchase of a small ship to be used for community activities on the riverside in Kaunas.

2019-2021
Partner organisation Ars Futuri together with OSTRALE Contemporary Art Centre (Dresden) cooperated in the development of the 13th OSTRALE Biennale. The Biennale, co-curated by German, Hungarian, Croatian and Lithuanian curators, will travel from Dresden to Kaunas in 2022 and will be shown in Kaunas Post Office building and site-specific settings near Nemunas river, using shipping containers and post-industrial sites, humanising the industrialised riverside areas and highlighting forgotten parts of the city’s landscape. A subtopic of the relation between cities and rivers will be tackled in the works of the Biennale.

A second grand event CONFLUENCE (20-22 May 2022) will be dedicated to the topic of rivers, with more than 50 initiatives to celebrate river city identity.

2017 Interreg Europe project “Sustainable Tourism for Attractivity of Riverside Cities (STAR Cities)” was launched together with Val-de-Marne tourism board in Paris, Lazio region and Municipality of Rome, Hamburg, Romanian Ministry of Tourism and NECSTouR – the Network of European Regions for Competitive and Sustainable Tourism. From 11 to 13 September 2019 the second Interregional Learning Session of STAR Cities took place in Kaunas (50 participants). Three-day event was placed under the theme of “Locals & Communities”; 8 good practices were presented in Kaunas, Zapyškis, Kulautuva etc.

The special programme of Kaunas 2022 - UPYNĖS is a part of STAR Cities project. UPYNĖS unites various organisations and independent initiatives (TėKA, community activists from Kaunas and Kaunas District, Kaunas district tourism and business information center, etc.), representatives from the fields of culture and art who carry out their activities among rivers and riversides. In 2019 the idea of mobile pavilion on the riverbanks was developed after the meetings with local stakeholders (6 meetings, 50 participants). The object itself is dedicated to collect artefacts brought by local people, related to the history of their riverside territory, authentic experience. The construction was installed in 5 different places in Kaunas and Kaunas District, e.g.: www.visikaipvienas.eu/2019/09/14/nemuno-istorijos-panemuneje/.

The programme development is also announced on official Interreg Europe website:

### GOVERNMENT OF THE REPUBLIC OF LITHUANIA

**INPUT OF THE GOVERNMENT OF THE REPUBLIC OF LITHUANIA**

An architectural centre in Kaunas Central Post Office.

After the completion of the feasibility study of currently abandoned Kaunas Central Post Office building, the institution will possibly be established in an iconic Kaunas modernist heritage building. The state-funded institution would ensure a successful continuity of the networking and cultural activities launched in Kaunas by programmes Modernism for the Future and Designing Happiness. It would ensure a wide-range of activities both at the national and international level, mobilizing professionals, proclaiming and interpreting heritage, organizing exhibitions, discussions and field research. The institution, in cooperation with the Division of Cultural Heritage of Kaunas City Municipality, could become a site manager in the UNESCO Creative Cities Design Category Network and in the UNESCO World Heritage Network, if Kaunas receives this title in July 2022.

One of Kaunas Tourism Information Centres could be established here.

**Approximate schedule:**
- 2023-2025 renovation of the building
- 2026 – institutional activities

**MINISTRY OF CULTURE OF THE REPUBLIC OF LITHUANIA**

A specially established state (budgetary) institution.

Concerning the co-funding of the project activities and city participation in the international heritage-related networks, “Initiatives for Kaunas” programme could be addressed.

### KAUNAS DISTRICT MUNICIPALITY

**ASSURANCE OF CONTINUITY OF KAUNAS DISTRICT MUNICIPALITY ACTIVITIES**

Continuity of the model of Contemporary Neighbourhoods by providing annual funding to each cultural centre for inviting artists from Lithuania or abroad to create art relevant to the local community.

Following the methodology, it is to be prepared by 2023, based on the actual practices of Kaunas District.
