Kaunas is full of secrets. Every citizen here owns some secret, therefore all Kaunians could be divided into several types: Custodians, Seekers, Creators, Carriers of secrets and even Secret Kaunians. But there is more to it. The city itself is a great secret. How did it survive? Because Kaunians were always into making stories and making history. This is how stories of Sunny Kaunas where Kaunians love to live, and Underworld Kaunas where The Princess and the Beast of Kaunas love to live had all appeared. So tonight, on the occasion of the European capital of culture night the Beast has a secret message to you. Take this map, wonder into celebrating Kaunas and try to uncover the message from the Beast!
